

100kWh Energy Storage Container for Port Use

Overview

This container is ideal for commercial and industrial projects, providing reliable power backup and energy management in a compact design. High-Capacity Container Energy Storage System: Up to 100kWh. We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are EVE brand, whose LFP chemistry packs 215kWh of energy into a battery volume weighing 3100kg. Our design incorporates safety protection mechanisms to endure. As businesses seek cost-effective, sustainable, and efficient energy solutions, TLS Energy introduces its 100kW/233kWh all-in-one energy storage cabinet —an innovative system designed to meet the growing energy demands of industrial and commercial applications.
