

# **10kW Off-Grid Solar Container Used in North African Chemical Plant**

## Overview

---

The 40-foot solar container is designed to be easily assembled and disassembled in 96 hours due to its PV roof structure and extendable arms. This allows us to electrify entire communities very quickly, initially or temporarily. What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Fast deployment in all climates. We engineer compact, robust, and rapidly deployable photovoltaic units integrated with advanced, safe LiFePO4 energy storage for off-grid, industrial. With our solar container we focus on solar energy, a sustainable and at the same time the most logical energy source in Africa.
