

150-foot energy storage container for construction sites

Overview

The innovative system, with capacity of up to 150kWh in a portable model, is built on Atlas Copco's lithium-ion battery technology so operators in noise-sensitive environments such as construction sites and events, can benefit from clean, quiet energy to reduce their emissions. With battery prices dropping, an end to battery shortages on the horizon, and unprecedented deployment predicted over the next six years, the energy industry is likely at or near the tipping point for energy storage from pilot projects to prime time. As the size of the storage systems grow and the range applications in commercial and industrial environments. It can be deployed quickly to expand existing power. Whether you need construction shipping containers for storage or office space at your job site, Mobile Modular Portable Storage has secure, high-quality solutions for rent or sale. Our construction site container offices feature HVAC units, lighting, and pre-stubbed phone and data lines as standard. MOBIPOWER containers are purpose-built for projects where energy demands go beyond what a trailer can deliver. It allows for locally emission-free operation and charging of hybrid or fully electric construction machinery and equipment. This smooths energy consumption and.
