

Are solar inverters covered by national warranty

Overview

A solar product warranty covers the physical components of your system, such as the panels, inverters, or batteries. For example, the SolarEdge inverter warranty covers string inverters for 12 years by default, with the option to extend coverage to 20 or even 25 years depending on the model. These inverter warranty periods protect you from defects and premature failures, but the process for filing claims isn't. As with solar panels, the available warranties and protections for solar inverters are among the most important factors to consider when comparing your options. For example, if a capacitor in the inverter.

Are solar inverters covered by national warranty
