

Are there many new energy solar sites in Jamaica

Overview

Wigton and SunTerra are advancing their solar energy projects. 83 MW and 50 MW solar farms in Jamaica, with 20-year licenses to supply power to the national grid by 2027. ADDITIONAL funding has been secured for SunTerra's largest solar venture through private equity funding building on its previous Inter-American Development Bank (IDB) investment. The project, which is being led by Mscale LLC through the Caribbean Venture Capital Fund, has taken an 10 per cent. In October 2018, the Government stated its intention of having 50 per cent or approximately 520 megawatts of renewable energy in the local energy mix by 2030. This is an increase from the previously declared 30 per cent target, which was announced April 2017. In pursuit of the renewable energy. A new chapter begins in Jamaica's renewable energy story as InterEnergy Group finalizes its acquisition of the Paradise Park solar facility in Westmoreland — the island's largest photovoltaic plant to date.

Are there many new energy solar sites in Jamaica

[Jamaica solar park: Impressive plan to supply 12% power](#)

Jamaica is set to build its largest solar park, an ambitious project that initially targets 92 MW of capacity and combines solar energy generation with integrated energy storage.
