

Australia s largest solar container system brand

Overview

A pioneer in the sector, Tesla remains a leading name with its Powerwall for residential users and Megapack for utility-scale projects. Widely adopted across Australia, Tesla's solutions are recognized for high efficiency, scalability, and integration with solar PV systems. At Modbox, we design and build shipping container solar solutions to securely house your solar panels, batteries, inverters, and other equipment. Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian conditions. Known for both inverters. Iberdrola Australia (former Infigen Energy) [1] is a developer, owner and operator of renewable energy generation assets in Australia.

Australia s largest solar container system brand
