

# Barbados Solar Power Generation and Energy Storage Production

## Overview

---

This ambitious project, spearheaded by the Barbados Electric Light & Power Company (BLPC), is a pivotal step in the island's transition to clean energy. By storing solar-generated power for use during peak evening hours, this initiative will support a more sustainable and. The Ministry is committed to developing a viable and competitive sustainable energy sector, through targeted and strategic renewable energy and energy conservation initiatives. The focus of the Ministry is to advance legislation, policy and programmes to give life to Government's stated policy of. This is the Energy Report Card (ERC) for 2023 for Barbados. The ERC also includes sectoral data and information on policies and regulations; workforce; training and capacity building; and related areas. The news is an exciting step toward a cleaner future. A \$350 million hybrid renewable energy power plant is scheduled to be constructed in Barbados.
