

# **Bern Energy Storage solar container lithium battery Cost Performance**

## Overview

---

This report provides the latest, real-world evidence on the cost of large, long-duration utility-scale Battery Energy Storage System (BESS) projects. DOE's Energy Storage Grand Challenge supports detailed cost and performance analysis for a variety of energy storage technologies to accelerate their development and deployment. The U.S. Tesla Powerwall, LG Chem) costs 15,000-15,000-35,000+, depending on battery type and capacity. The price of an energy storage container can vary significantly depending on several factors, including its capacity, technology, features, and market.
