

# Bosnia and Herzegovina Energy Storage Power Station Project

## Overview

---

This project aims to implement a battery energy storage system (BESS) for EPBIH, aimed at enhancing the decarbonisation of the energy sector in Bosnia and Herzegovina. But here's the catch - solar and wind farms can't operate 24/7. Licensing and feasibility studies are already underway - the goal is to create a. Discover how Bosnia and Herzegovina's first large-scale electrochemical storage project is reshaping regional energy infrastructure while creating opportunities for international collaboration. Discovering and tracking projects and tenders is not easy. With Blackridge Research's Global Project Tracking (GPT) platform, you can identify the right opportunities and grow your pipeline.

## Bosnia and Herzegovina Energy Storage Power Station Project

### [Banja Luka New Energy Storage Plant: Powering Bosnia's Renewable ...](#)

As Bosnia targets 55% renewable energy by 2035, storage systems like Banja Luka's will become the grid's backbone. The project serves as both technical solution and economic catalyst - proving that ...

### [Bosnia and Herzegovina. Optimal Battery Energy Storage System: ...](#)

This project aims to implement a battery energy storage system (BESS) for EPBIH, aimed at enhancing the decarbonisation of the energy sector in Bosnia and Herzegovina.

### [Banja Luka Electrochemical Energy Storage Power Station A ...](#)

Discover how Bosnia and Herzegovina's first large-scale electrochemical storage project is reshaping regional energy infrastructure while creating opportunities for international collaboration.

### [Energy storage technologies Bosnia and Herzegovina](#)

Energy production in Bosnia and Herzegovina is carried out using primary energy from solid fuels, wood biomass, hydropower, as well as other forms of RES (solar and wind energy).

### Bosnia and Herzegovina

The power plant will have an installed capacity of 60 MW and an estimated annual production of 84 GWh. The estimated value of the investment is EUR 53 million (\$62 million).

### [Bosnia and Herzegovina enters the era of energy storage](#)

The country is preparing to install its first battery energy storage system - with a capacity of up to 120 MWh. This is a huge step towards energy system stability, better use of renewables and ...
