

Can I bring lithium battery packs to Nauru

Overview

Electro shock weapons containing dangerous goods such as explosives, compressed gases, lithium batteries etc. are not permitted in either your carry-on or checked-in baggage. Lithium batteries, which power everyday devices, can catch fire if damaged or if battery terminals are short-circuited. Devices containing lithium metal batteries or lithium-ion batteries, including – but not limited to – smartphones, tablets, cameras, and laptops, should be kept in accessible. □ This document provides guidance for airline passengers on various devices that contain lithium batteries, including power banks, small vehicles, e-cigarettes, smart luggage, baggage tags and tracking devices.
