

Can I put a locker outside the main door

Overview

We wish to protect the locker in accordance with Chapter 14 of NFPA 30 and have rated it for 4-hours to eliminate the need for fire separation distance to the immediately-adjacent main building as allowed. The locker will not be structurally attached and will only have flashing connecting the two. Got a code question?

Just ask. I'm here to help you figure it out — no jargon, no hassle. Get Started with AI Navigator COPYRIGHT © 2026 INTERNATIONAL CODE COUNCIL, INC. Outward-opening doors are less common in residential settings but are often found in commercial buildings and some exterior exits in homes. The heavy-duty resin construction is durable and resists scratches, dents, and rust. Suncast prides itself on. Depending on the size of the porch, the safe can sit right next to the door, either perpendicular or parallel to the house making it easy for the homeowner to grab their stuff without even having to put on a pair of shoes.
