

# Can the 24V fire protection power supply be powered by an inverter

## Overview

---

Yes, you can use a 24V battery bank with a 12V inverter, but you need a Switched-Mode Power Supply (SMPS). The SMPS will convert the 12V to the necessary 28V for charging the 24V lead-acid battery. Primary power to the fire alarm system can be provided by the electric utility, an engine-driven generator (this is not a standby generator, however it is a site generator meeting the requirements in NFPA 72), and Stored-Energy Emergency Power Supply System (SEPESS), or a cogeneration system. To make a 24V. Altronix eFlow6N is a power supply/charger converts a 120VAC 60Hz input into a single Class 2 powerlimited output. Power supply/charger is selectable for 12VDC or 24VDC with a total of 6A max. It also offers a suite of features that includes fire alarm disconnect, overvoltage. The Fire•Lite FCPS-24FS8(C/E) is a compact, cost-effective, 8-amp remote power supplies with battery charger. Primary applications include notification appliance (bell) circuit (NAC). Lighting Inverter Supply only works with UL 924 standard, tested, and certified systems, providing you with the industry's highest capacity and efficiency systems. 1 that a generator and transfer equipment used for emergency power (like egress lighting) need to be installed in a 2-hour rated room.

## Can the 24V fire protection power supply be powered by an inverter

---

### [UL 924 Compliance & Requirements , Emergency Lighting Standards](#)

You can buy emergency lighting units with backup batteries, which can meet the requirements without an inverter. Depending on the size and makeup of your facility, you may need more power to meet ...

### [Emergency Lighting Inverter System , Information by Electrical](#)

It seems debatable whether you are installing an energy storage system as covered in the fire code, but possibly. That said, California does not use an NFPA fire code (it uses an an ICC ...

### [Can I Use A 24V Battery Bank With A 12V Inverter? Compatibility And](#)

Yes, you can use a 24V battery bank with a 12V inverter, but you need a Switched-Mode Power Supply (SMPS). The SMPS will convert the 12V to the necessary 28V for charging the 24V ...

### [Emergency Lighting Inverter Installation and Operation Manual](#)

The Central Lighting Inverter meets UL 924 requirements for emergency lighting system applications and provides the security of 90-minutes of battery backup power.

### [Fulham: Micro-Inverters / Emergency Power Supplies](#)

Micro-Inverters / Emergency Power Supplies deliver power to any fixture (any tech type) in emergency mode for 90 minutes at their respective Emergency Wattage (12W, 25W or 50W, depending on the ...

### Altronix Products

Power supply/charger is selectable for 12VDC or 24VDC with a total of 6A max. supply current. It also offers a suite of features that includes fire alarm disconnect, overvoltage protection, and low power ...

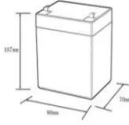

### [Understanding Fire Alarm Battery Backup and Power Supply Standards](#)

If the main power is interrupted, the backup automatically activates to sustain alarms, detectors, and notification appliances without delay. This article will explore how power supply functions within a fire ...

[Guide to Fire Alarm Basics: Power Supplies](#)

Instead of providing two separate power supplies, you are permitted to provide power via a Stored-Energy Emergency Power Supply System (SEPSS) otherwise known as an Energy Storage ...

12.8V6Ah

- Nominal voltage (V):12.8
- Nominal capacity (ah):6
- Rated energy (Wh):76.8
- Maximum charging voltage (V):14.6
- Maximum charging current (a):6
- Floating charge voltage (V):13.6-13.8
- Maximum continuous discharge current (a):10
- Maximum peak discharge current @10 seconds (a):20
- Maximum load power (W):100
- Discharge cut-off voltage (V):10.8
- Charging temperature (°C):-10-+50
- Discharge temperature (°C):-20-+60
- Working humidity: <95% R.H (non condensing)
- Number of cycles (25 °C, 0.5c, 100%doD): >2000
- Cell combination mode: 32700-4s1p
- Terminal specification: T2 (6.3mm)
- Protection grade: IP65
- Overall dimension (mm):90\*70\*107mm
- Reference weight (kg):0.7
- Certification: un38.3/mdds
