

Canadian Solar Replacement Photovoltaic Panels

Overview

Canadian Solar offers two main solar panel module series for residential use in the United States: HiKu6 and TOPHiKu6. Panels in both series feature 108 half-cut cells, but the difference is that HiKu6 panels use older PERC solar cell technology while TOPHiKu6 panels use newer. Canadian Solar closely examines our supply chains to ensure goods imported are not mined, produced or manufactured, wholly or in part, with prohibited forms of labor, i., slave, convict, indentured, forced or indentured child labor. Copyright © Canadian Solar. The company's residential solar panel lines are HiKu6 and TOPHiKu6, giving homeowners options for performance and. Canadian Solar is one of the most recognized names in the global solar panel market. As the only North American company consistently ranked in the global top five, Canadian offers a unique combination of innovation, quality, and affordability. These panels produce DC power that is then used to charge batteries or feed into inverters that feed directly into the Power Grid.
