

China Huijue battery connected to inverter

Overview

The All-in-One Energy Storage System by Huijue Group seamlessly integrates a solar inverter and a lithium battery, delivering an efficient and reliable new energy solution. HJ-EOV series battery packs are high-voltage stacked all in one energy storage systems, designed entirely for residential ESS applications. With this product's integrated battery and inverter, you can reduce your adaptation worries, easily save on electricity bills and back up your power in case of. Among several inverter models designed for different usage scenarios, you are free to choose based on your needs.
