

Cost of a 100kW Energy Storage Unit in Australia

Sample Order
UL/KC/CB/UN38.3/UL

Overview

The starting price for a 100kWh commercial solar battery in Australia is around A\$68,999, and installation usually adds A\$1,000–3,000, depending on your site setup. If you're also installing a solar system (like a 100kW array), that could cost an extra A\$80,000–120,000. These batteries are typically lithium-ion commercial-grade units, often VPP-ready (Virtual Power Plant capable), so you can integrate. In this 2025 expert pricing guide, we'll break down the solar battery storage price in Australia, including costs per kWh, installation pricing, top brands, rebate savings, and real-world examples — all written by an expert solar energy writer for Australian Design Solar. Solar. RedEarth's PowerOasis 100kVA Home Battery System is a powerful, scalable energy storage solution designed for large-scale residential and commercial applications. This comprehensive guide will break down the costs associated with purchasing and installing combined solar and battery systems, helping you make an informed decision tailored to your needs. The data is averaged from our vetted network of over 400 installers.
