

Costa Rica installs solar power system

Overview

CFS and Avolta Energy have installed a 137.5 kW solar system for self-consumption at Costa Rica's Ministry of Labor and Social Security in San José. The project, completed in two phases, includes 250 solar panels and 8 Fronius Symo inverters, generating 165 MWh annually. Source: PV. IntiTech Solar is one of the first Costa Rica Solar Systems installation companies starting in Costa Rica's Osa Peninsula in 1999. Despite its abundant sunshine, solar has yet to become a significant player in the nation's energy mix. Recently, the ICE Board of Directors gave the green light to the construction of the country's largest photovoltaic solar plant, known as the Colorado Photovoltaic Solar. Costa Rica is a global leader in renewable energy, with an ambitious goal to achieve carbon neutrality.
