

# Currently the most efficient domestic photovoltaic panel

## Overview

---

The most efficient solar panel available for homes today is CW Energy's 450-watt panel at 23. Solar panel efficiency is the percentage of incoming sunlight that a single solar panel can convert into electricity. Due to the many advances in photovoltaic technology over the last decade, the average panel conversion efficiency has increased from 15% to over 24%. Solar technology keeps getting better, but do you really need the most efficient panels on your roof?

Here's what matters when making your solar decision. The companies providing quotes may differ from those described in our independent reviews. Clicking "Get Your Estimate" submits your data to All Star Pros, which will process your data in accordance with the All Star Pros Privacy Policy.
