

Does Jordan have solar power stations

Overview

There are 68 Solar photovoltaic power plants in Jordan as of July, 2025. The Ministry of Energy and Mineral Resources (MEMR) introduced the updated Renewable Energy and Energy Efficiency Law (12) of 2024, followed by Bylaw (58) of 2024. Effective September 2024, prosumers in Jordan can now choose from four on-grid solar PV connection mechanisms: The bylaw imposes a. Jordan lies within the solar belt of the world with average solar radiation ranging between 5 and 7 kilowatt-hour (kWh) per square metre. Photo: Chumash11 From pv magazine 12/24-01/25 Jordan's high irradiance, compared to its Gulf Cooperation Council. Jordan generates solar-powered energy from 25 solar power plants across the country. It is located in Mafrq, Jordan.

Energy in Jordan

Natural gas is increasingly being used to fulfill the country's domestic energy needs, especially with regard to electricity generation. Jordan was estimated to have only modest natural gas reserves (about 6 billion cubic meters in 2002), but new estimates suggest a much higher total. In 2003 the country produced and consumed an estimated 390 million cubic meters of natural gas. The primary source is located in t...
