

Domestic solar power generation equipment manufacturers

Overview

Here is a comprehensive look at the top 20 solar power system manufacturers in the USA. These companies are setting benchmarks for innovation, production capacity, and contribution to a greener planet. First Solar. Manufacturing Renaissance: US solar manufacturing capacity has grown 190% year-over-year in 2024, reaching over 51 GW annually—enough to meet nearly all domestic demand while creating over 33,000 manufacturing jobs across the country. These firms produce solar panels, storage systems, inverters, and installations for diverse markets, including residential. In 2025, the industry is more robust than ever, with American-made solar solutions gaining prominence not only domestically but also on the global stage. Solar charge controllers are offered in MPPT and PWM topologies, including 60 A class.
