

Electric vehicle adoption brunei

Overview

The electric vehicle industry in Brunei Darussalam is gaining momentum, driven by macroeconomic factors like government incentives and environmental policies. Brunei Darussalam, a nation historically dependent on hydrocarbon resources, is making a decisive pivot towards sustainable transport, directly challenging its status quo in pursuit of a low-carbon future. The key driver of this transformation is the ambitious promotion of electric vehicles (EVs). BANDAR SERI BEGAWAN: Brunei Darussalam does not need to be a 'hero' in achieving high electric vehicle (EV) ownership, Minister at the Prime Minister's Office and Minister of Finance and Economy II Datuk Seri Setia Dr Awang Mohd Amin Liew Abdullah said during the 21st Legislative Council (LegCo). Offering a wide range of services and decades of experience, we provide hands-on support to facilitate growth and success in the evolving electric vehicle sector. In fact, the demand for green cars is increasing every year.
