Overview

To purchase an EV, a reserve price of \$45,294. 44) (exclusive of VAT) was set. “This reduced price offered great value for money, with similar medium-sized EVs selling in the \$50,000 (US\$30,663) to \$100,000 (US\$61,321) price range. The EVs for sale, the Hyundai IONIQ Electric 38. 2kW Entry models, are well known for their eco-friendly design, energy-efficient performance, spaciousness and comfort, and excellent fast-charging capability. The EVs were being sold by MFEM on an “as is, where is” basis. To purchase an EV, a reserve. Cook Islands Government will retain and distribute eight electric vehicles (EVs) it previously tried to sell due to lack of bids likely caused by affordability concerns. These eight EVs were part of a larger purchase of 25 Hyundai Ioniq electric cars acquired for the Pacific Islands Forum Leaders. Cook Islands" economy continued its robust recovery in fiscal 2025, with real GDP growing by more than 10% as tourism arrivals approached record levels during the first 11 months of the. Cook Islands is one of the South Pacific"s most popular holiday hotspots, with steadily increasing numbers. Taking a closer look at electric vehicles, the most expensive part is the lithium-ion (Li-ion) battery, making up around 40% of the vehicle's cost. The materials used in these batteries directly impact the EVs performance. They determine how far an EV can travel on a single charge, how fast it can. Rarotonga, Cook Islands, 22 August 2023 - At their meeting hosted by the Government of Fiji in Suva in July 2022, the Pacific Islands Forum (PIF) Leaders confirmed the Cook Islands to host the 52nd Pacific Islands Forum Leaders Meeting (PIFLM52) in the Cook Islands in 2023.
