

Energy storage policy updates santiago

Overview

During the opening address of Energy Storage Summit Latin America 2025, in Santiago, Chile, the Chilean Minister of Energy Diego Pardow Lorenzo said the country was most likely set to surpass its 2050 targets in 2027. Chile has emerged as a world leader in hybrid systems and standalone energy storage since implementing its Renewable Energy Storage and Electromobility Act in 2022. Pardow added that by January, Chile will have installed 2GW of battery energy. Between 2023 and 2030, 5. It proposed a law to allow the tender of 2 GW of BESS at a \$2 billion cost. The nation is not merely adapting to global trends but is actively constructing one of the world's most advanced and regulated. Chile is rapidly moving to build more power generation capacity, with much of that effort focused on renewable energy resources and battery energy storage systems (BESS).

Energy storage policy updates santiago

[Chile moves on storage to 'decarbonize the night'](#)

Chile has emerged as a world leader in hybrid systems and standalone energy storage since implementing its Renewable Energy Storage and Electromobility Act in 2022.

[Chile advances regulation to support ambitious storage goals](#)

Between 2023 and 2030, 5.9 GW and 24.7 GWh of energy storage is forecast to be installed: o Chile's administration considers storage strategic for the country's goals (at least 60% of renewables by ...

[Chile to reach 2050 energy storage target within next two years, says](#)

During the opening address of Energy Storage Summit Latin America 2025, in Santiago, Chile, the Chilean Minister of Energy Diego Pardow Lorenzo said the country was most likely set to ...

[Chile's 2026 Energy Storage Policy Update Key for Mining Sector](#)

The horizon for energy storage in Chile has never been clearer or more promising. The scheduled regulatory refinements for 2026 will solidify the business case, while the insatiable ...
