

Finland battery energy storage equipment

Overview

The system converts renewable electricity into high-temperature sand storage to deliver industrial heat on demand. The Finnish cleantech startup TheStorage officially commissioned its first industrial-scale thermal energy system at a local brewery in January 2026. Swedish flexible assets developer and optimizer Ingrid Capacity has joined hands with SEB Nordic Energy's portfolio company Locus Energy to develop what is claimed to be Finland's largest and. Hitachi Energy is providing the end-to-end AC solution for the project, while the DC side, including batteries, will be provided by a separate contractor. This operational pilot. cent years, there has been a notable increase in the deployment of energy storage solutions. A similar growth in thermal energy storage sys ems. A well-designed and properly maintained Battery Energy Storage System (BESS) is a smart investment. Polar Night Energy is attracting worldwide attention for their innovative thermal sand battery. If you have ever walked barefoot along a beach at.

Finland battery energy storage equipment

12.8V 100Ah

[Hitachi Energy to deliver power conversion solutions for Finland's](#)

Hitachi Energy has signed an agreement with Nordic Electro Power (NEPower) to provide advanced power conversion technology for Finland's largest battery energy storage system

...

[A review of the current status of energy storage in Finland and ...](#)

products and balancing capacity in the Finnish energy system are also studied and discussed. The review shows that in recent years, there has been a notable increase in the deployment of energy ...

[A review of the current status of energy storage in Finland and future](#)

Currently, utility-scale energy storage technologies that have been commissioned in Finland are limited to BESS (lithium-ion batteries) and TES, mainly TTES and Cavern Thermal ...

[New 'sand-in-motion' battery offers 10x more heat transfer efficiency](#)

Finland's sand battery offers 10x more heat transfer efficiency, cuts energy bills by 70% The architecture of the new technology supports high vertical and horizontal scalability.

Energy storage systems

We design, build and maintain BESS in Finland and the Baltic countries. We specialise in the construction and maintenance of large, industrial-scale battery energy storage systems. We deliver ...

[Hitachi Energy supplies PCS to Finland's largest BESS](#)

Finland's largest battery energy storage system (BESS) to date will need to cope with "especially challenging" operating conditions and stringent and evolving grid code requirements.

[Finnish company creates an innovative sand battery](#)

Finnish company creates an innovative sand battery Polar Night Energy has developed a thermal energy storage system which supplements renewable energy sources and reduces our ...

[One of Finland's largest energy storage facilities commissioned in](#)

The energy storage facility delivered by Merus Power to Lappeenranta, Finland, has been completed and put into market use on 15 May 2025. The energy storage facility is owned by a ...

[Finland's Largest Battery Storage Begins Construction](#)

While substantial financial details for the Finnish project remain undisclosed, the economic viability of battery storage is pivotal for broader adoption. Crucially, the progress in Finland could also ...

[Finland to host 240 MWh of new BESS projects](#)

Swedish flexible assets developer and optimizer Ingrid Capacity has joined hands with SEB Nordic Energy's portfolio company Locus Energy to develop what is claimed to be Finland's ...
