

German solar container battery Exhibition

Overview

Intersolar Europe will take place from May 7-9, 2025 at Messe München as part of The smarter E Europe, Europe's largest trade fair alliance for the energy industry. We will show you our latest developments in the following areas, among others: Business models, battery storage expansion, negative power prices: which developments influence the bankability of photovoltaic projects?

Solar PV prices shift after years of oversupply. This episode covers supply-chain pressures, tech competition, and 2026 market impacts. Solar energy – a key. The Battery Show Europe returns to Stuttgart, Germany, providing attendees with opportunities to learn how to navigate complex industry challenges and supply chain risks, network with existing and new suppliers and partners, and keep their business future-proof. Discover key BESS trends, market. Meet battery manufacturers, suppliers, engineers, thought leaders and decision-makers for a conference and battery tech expo focused on the latest developments in the advanced battery and automotive industries. According to a joint analysis by Roland Berger and RWTH Aachen University, the global demand for battery.
