

Gnb uninterruptible power supply solar container battery properties

Overview

With a comprehensive product range based on state-of-the-art technologies, GNB delivers the right battery for every application. GNB® Industrial Power offers reliable energy storage solutions for critical systems requiring uninterrupted power supply. The below table is only indicative and depends. Designed for superior, high-rate performance in uninterruptible power supply (UPS) applications, the GNB Network Power SPRINTER series offers high power density and reliability. For more information please ask a GNB sales.

Gnb uninterruptible power supply solar container battery properties

GNB Industrial Power

The PJ2V battery is highly reliable and has a long service life, making it ideal for emergency power supply for public facilities, and telecom applications. It also has ultra-low gas emissions and self ...

THE ABSOLYTE GP ADVANTAGE T

Absolyte is one of the world's best selling large valve regulated lead acid (VRLA) battery brands, from an industry innovator with field-proven experience since 1983.

GNB NP Sonnenschein Solar

Sonnenschein SOLAR batteries are specially designed for small to medium performance requirements in leisure and consumer applications. The advantages of the maintenance free VRLA-batteries are ...

Uninterruptible Power Supply Applications

Design life in years: 20 @ 25°C Nominal
capacity: 2000-6000 Ah @ 25°C Grid plate Single
cell Valve regulated lead-acid batteries
Maintenance-free (no topping-up) Special high
current performance ...

[GNB Industrial Power - Battery USA](#)

Designed for superior, high-rate performance in uninterruptible power supply (UPS) applications, the GNB Network Power SPRINTER series offers high power density and reliability.

[Industrial Batteries / Network Power Classic Solar](#)

Due to their robustness, long design life and high operational safety they are ideally suitable for use in solar and wind power stations, telecommunications, power distribution companies, railways and ...

[Uninterrupted GNB Power Supplies](#)

The batteries must operate dependably and consistently through numerous power outages. GNB offers reliable battery ranges in both VRLA and flooded batteries specifically designed for the high power ...

GNB NP Classic Solar

These lead acid batteries with liquid electrolyte are renowned for being safe and reliable due to their high performance. Typical applications are small solar and wind power systems, holiday and weekend ...

PRODUCT INFORMATION

- BATTERY CAPACITY**
50kWh~500kWh
- DC VOLTAGE RANGE**
400V~1000V
- DEGREE OF PROTECTION**
IP54
- OPERATING TEMPERATURE RANGE**
-10~50°C

SPECIFICATIONS

SPRINTER® series batteries incorporate advanced VRLA technology designed for superior high-rate performance in uninterruptible power supply (UPS) and power quality applications.
