

Gonghe New Solar Power Generation

Overview

Qinghai Gonghe 50MW Photothermal Power Station is located in the Ecological Solar Power Generation Park of Gonghe County, Hainan Prefecture, Qinghai Province. It adopts molten salt tower technology and is one of the first batch of solar thermal power generation demonstration. The single-day power generation of Qinghai Gonghe CSP Power Station hit a new high! On July 21, the optimized operation mode of Qinghai Gonghe Solar Thermal Power Station generated a single day of 803,000 kWh of power generation, and the operating time of the unit was 19 hours. 222GWh in November since its commissioning. The operational records indicate that the plant's theoretical power. This page provides information on Power China Qinghai Gonghe - 50MW Tower CSP project, a concentrating solar power (CSP) project, with data organized by background, participants, and power plant configuration. It is located in Qinghai, China. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active.
