

How many years of national warranty for photovoltaic panels

Overview

A standard solar panel warranty should come with at least 10 years of protection, though many premium options now offer 25 or even 30+ years of coverage. While many home appliances typically come with a basic warranty offering free replacements within a specified period, solar panels are protected by various types of warranties that cover a range of potential issues. But like any product exposed to the elements, things can go wrong. Whether it's a manufacturing defect, a sudden performance drop, or wear and tear over time, you want to be protected. Typically, contractor warranties encompass issues like roof penetrations, wiring, workmanship, and the overall structural integrity of the installation. Most warranties will guarantee that your panels will produce at least 80% of their rated power output for 25-30 years.

Also known as the performance warranty, today's top-tier solar panels are sold with power warranties of at least 80% electricity-generating capacity after 25 or 30 years.

[Solar Panel Warranty 101 \(What to Know in 2026\)](#)

A 25-year product warranty is standard for solar panels, and most fall within a range of 15 years to 40 years. Although the average panel lifespan is estimated at around 30 years, most clean energy ...

**Efficient
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

**Intelligent
Simple O&M**

- IP65 Protection Degree: support outdoor installation
- Smart ITC Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- SC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead Acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
