

How much does a 19-inch substation user cabinet cost in Europe

Overview

The good news is that network cabinet prices range from as low as \$100 for basic wall-mounted units to over \$3,000 for specialized outdoor models. However, understanding what drives these costs will help you make a smart buying decision. This global standard (EIA-310) does not refer to the overall width of the cabinet but to the width of the equipment (server, switch, patch panel) it can accommodate. This allows us to offer 19" racking solutions for data centres, enterprise IT, computer rooms, and offices. What is a Server Rack?
