

How much does a photovoltaic shared bracket cost

Overview

Average installation costs typically range from \$1 to \$3 per bracket. Factors influencing these costs include region, complexity of the installation, and labor market conditions. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U.S. solar photovoltaic (PV) systems to develop cost benchmarks. These benchmarks help measure progress toward goals for reducing solar electricity costs. When considering the cost of solar photovoltaic panel brackets, various factors play a crucial role.
