

# How much is the solar voltage in Vatican City

## Overview

---

Vatican officials have estimated it will cost under 100 million euros (\$114 million) to develop the solar farm, and that once it is approved by the Italian parliament, the contracts to do the work could be put up for bids. The Vatican City, the heart of the Catholic Church and a symbol of religious heritage, is becoming a beacon of modern sustainable practices with its adoption of solar energy. At Vatican Blog, we are excited to explore how this ancient city-state is embracing modern technology to reduce its carbon. By Tarek Salame • Published: 31 May 2025 • 12:56 • 2 minutes read Vatican City now runs fully on solar power. Credit: Petr Polak Most people would not expect the world's smallest country, with fewer than 1,000 residents, to lead the global energy conversation. In 2025, the Vatican City flipped the. ROME (AP) — Italy agreed Thursday to a Vatican plan to turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into the world's first. Agrivoltaics involves the dual use of land for solar energy production and agriculture. They are built with a series of solar panels that coexist with crops, livestock or both. Now, the country is officially energy-independent, as.

## How much is the solar voltage in Vatican City
