

# How powerful is Huawei's photovoltaic inverter

## Overview

---

The Huawei SUN2000-185KTL-H1 is a powerful string inverter for large photovoltaic systems. With 9 MPP trackers and a maximum efficiency of 99%. The high input voltage of up to 1,500 V enables flexible system designs and reduces system costs. Market Leadership with Proven Technology: Huawei maintains its position as the world's #1 solar inverter manufacturer for six consecutive years, commanding 29% of the global market through superior AI-powered optimization, 99% peak efficiency, and extensive R&D investment representing 54.1% of. Introducing a remarkable collaboration between inverters and optimizers, the SUN5000 Series is designed to deliver peak performance. Thanks to Huawei's innovative optimizing system, each PV module operates independently at its best, minimizing power loss even in shaded areas.
