

## Overview

---

The best tool for this job is a solar panel snow rake. Heine recommends using “a foam-edged rake with a long non-metal handle to protect yourself and the panels. Do I need to remove snow from my solar panels?

And if so, what's the easiest way to do it?

The short answer: In most cases, you don't need to do anything at all. And when snow does become a problem, the easiest way to automatically remove snow on solar panels isn't a rake or a gadget; it's smart. While the efficiency of solar panels drops in winter, proper snow removal techniques can help keep this loss to a minimum. That being said, handling panels carefully during maintenance is crucial to avoid voiding warranties or insurance coverage.
