

Huawei solar Panels in Western Europe

Overview

The Chinese tech giant is at the heart of a brewing storm over the security of Europe's energy grids. Lawmakers are writing to the European Commission to urge it to "restrict high-risk vendors" from solar energy systems, in a letter seen by POLITICO. | Joan Cros/NurPhoto via Getty Images BRUSSELS — First it was telecom. Cyber officials fear the Chinese tech giant's grip on energy networks. It builds a product ecosystem centered on solar inverters, charge controllers, and energy. In a remarkable turn of events, SolarPower Europe, the leading trade body representing the European solar industry, reversed its earlier exclusion of Chinese tech giant Huawei from its membership. Such restrictions would target Huawei first and. As Europe strives to achieve its ambitious net-zero targets, a new challenge emerges that could jeopardise its energy security and sustainability ambitions.
