

# Internet celebrity new energy storage factory

## Overview

---

Tesla is gearing up with its first energy storage 'super factory' outside the US, located in Shanghai, China. Expected to be operational by Q1 2025, this ambitious project aims to produce 10,000 Megapack batteries annually, potentially powering a large city for hours. Tesla's energy storage plant in Shanghai's Lin-gang Special Area commenced operation on Feb 11, as the assembly line started the production of the first Megapack unit. The Megapack, which is an advanced battery system designed for large-scale energy projects, can store more than 3,900. Tesla Inc (NASDAQ:TSLA) on Tuesday officially opened its Megafactory in Shanghai that is expected to produce 10,000 Megapack units per year, or 40 GWh of energy storage, for the global market. With global battery storage capacity projected to hit 650 GW by 2030 according to BloombergNEF, industry experts aren't just engineers anymore—they're becoming the new faces of climate tech. Let's face it—current energy. sla store in Littleton, Colo.
