

Irish factory installs solar air conditioning

Overview

Solar air conditioning offers an eco-friendly cooling solution tailored for Irish homes and businesses. This guide breaks down the installation process, cost-saving potential, and local considerations to help you harness solar power effectively. Unlike traditional units that drain the national grid during peak summer months, these intelligent. Established in 2001 by Jim and Mary Healy, The Chocolate Garden of Ireland is an Award-winning family business making hand made chocolates, premium ice cream (Tipperary Ice Cream brand) and a wide range of delicious treats. The business employs around 20 people and is located in a rural area on the. Our efficient range of ground source heat pumps, air source heat pumps, underfloor and solar PV systems provides climate friendly year-round temperature control while reducing your reliance on traditional energy sources. If your factory energy bills are rising, it's time to take control. AEI designs and installs custom solar PV systems that cut electricity costs by up to 50% — with zero upfront cost options available. Our combined track record speaks for itself - consistently providing high-quality renewable energy solutions, on time and within budget, making us the trusted partner for your sustainable, low-carbon future.
