

Is installing solar panels to generate electricity a scam

Overview

A solar panel scam traps homeowners in long-term financial and legal headaches, often before they realize what has happened. As solar energy adoption grew, dishonest companies exploited incentives, tax credits, and financing programs. Did a salesperson knock on your door and promise free rooftop solar panels at no cost to you?

Or say you'll never have to pay another electricity bill because government programs, grants, or rebates cover your solar installation?

It's likely a scam. While there are some government-funded solar. Demand for solar-powered home systems has increased rapidly in the last several years. Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. In fact, complaints involving solar panels continue rising.
