

Is there a solar power station generator in Jerusalem

Overview

On Tuesday, the Jerusalem Electric Company officially opened the solar power station in Aqabat Jaber Camp, southwest of Jericho. This \$4 million project marks a renewed focus on environmental alternatives to traditional power sources. The new facility, with a capacity of 5.5 megawatts, raises the total capacity of projects in the company's. Additionally, Herzliya based SolarEdge has become a market leader in inverters for non-utility scale photovoltaic solar power. This project represents the second phase of the station's construction, following the previous establishment of a joint. The Ashalim solar station is located in Israel's Negev desert, close to the Ashalim kibbutz. It is divided into 3 plots, each with different technology. The Plot A of Ashalim (Negev Energy) is a 121.

The Negev Desert and the surrounding area,

including the Arava Valley, are the sunniest parts of Israel, and little of this land is arable, which is why it has become the center of the Israeli solar industry. David Faiman thinks the energy needs of Israel's future could be met by building solar energy plants in the Negev. As director of Ben-Gurion National Solar Energy Center, he operates one of the largest solar dishes in t...
