

It is illegal to use photovoltaic panels

Overview

However, in general, solar panels are not illegal and most states have laws in place that protect a homeowner's right to install them. There are a few states where HOAs may still prohibit or restrict solar panels, but this is generally not the case. Most states have solar access laws that forbid any. Luckily, many states have passed solar access laws that bar HOAs from banning solar panels. While federal guidelines provide a baseline, local jurisdictions often implement additional requirements affecting everything from permit costs to HOA. Solar panel conflicts typically involve disputes between homeowners, neighbors, and HOAs over aesthetics, shading, and installation restrictions in residential communities.
