

# Italian container generator manufacturer

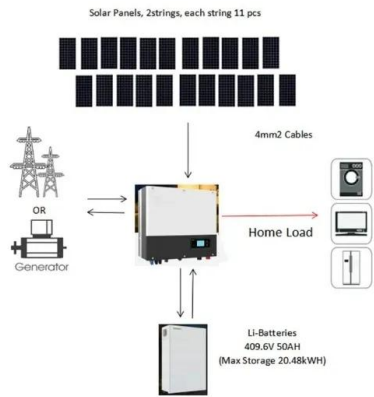

## Overview

---

For over 40 years in Italy, we have been designing and manufacturing generating sets for emergency, self-production and cogeneration systems, which we install all over the world. Generating sets for hospitals, data centers and water treatment plants. Guaranteed energy for every need: from the pure power of our industrial generating sets to our silenced models. Italian quality has been making your world brighter since 1980. Contact us. GENMAC has been on the market since 1983 and now looks toward the future with a single inspiring motivation: to sell high quality power generators all over the world, helping all people do their jobs in any kind of environment, without forgoing safety. That is why PUNCH Group and Tecnogen (part of Bruno Generators Group) decided to showcase here for the first time their New Hydrogen generator. [READ MORE >](#) BRUNO Srl has signed a Partnership. In an area covering 40,000 sqm, Ausonia designs, manufactures and sells a wide range of gensets solutions up to 4,500 kVA for each single unit. Within its tried & tested products offering, Ausonia includes AC Generators, DC Generators, Co-generation and Tri-generation systems (CHP/CCHP), Hybrid. Compagnia Tecnica Motori can offer a wide range of standard diesel and gas generators relaying on the most important engines and alternators international manufacturers.
