

Jiang photovoltaic support column manufacturer

Overview

Jiangyin Haihong New Energy Technology Co. It is a modernized management enterprise focusing on the overall solutions research and development of solar mounting systems and other photovoltaic modules. Bracket bases, including standardized options like 10 inch column base, 10 inch round column base, and 6 inch column base for varied load requirements, are used to build support systems for large infrastructure such as tall buildings and Bridges. Established in 2011, the company is located in Jiangyin City, Jiangsu Province with nearly 500 employees. Solar panel ground mounting systems have become a. Solar ground photovoltaic installation system The main parts are made of hot-dip galvanized steel plate, which has good structural strength performance; Good stability, corrosion resistance, compatible with various solar modules., as a wholly-owned subsidiary of Hebei Aoqiang Metal Products Group, was established in 2023 with a registered capital of 10 million yuan, focusing on global trade services for new energy metal products.
