

# Kiribati electric vehicle adoption

## Overview

---

Kiribati, a small island nation in the Pacific, is making history by becoming the first country in the world to introduce an entire fleet of electric cars. Ø Introduce and demonstrate a clean fleet of vehicles with higher energy and environmental standards and thereby reduce energy consumption, noise, CO2 and pollutant emissions. With its population of just over. Vehicles known as electric vehicles (EVs) can run entirely or partially on electricity. It presents three scenarios (BAU, CPS and SDG scenarios) that have been developed using national data, which consider existing energy policies and strategies and reflect. 6Wresearch actively monitors the Kiribati Electric Vehicles Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook. Our insights help businesses to make data-backed strategic decisions with ongoing market dynamics. • Based on the historical trend and information from KIER, it is estimated that Kiribati will achieve universal access to electricity by 2030. 1 per cent (2021) Achievement of EE target requires phasing-out of inefficient cooking and heating.

## Kiribati electric vehicle adoption
