

Kuala Lumpur energy storage charging station

Overview

ChargeEV activates its first EV charging station with a Battery Energy Storage System (BESS). Located at the Kuala Lumpur Golf & Country Club (KLGCC) Resort in Bukit Kiara, the new deployment by the Yinson GreenTech subsidiary is also the first ChargeEV location with on-site card. Hypercharging hub will allow ultra-fast charging speeds of up to 350kW DC (Pictured above: CEO of Charge+ Mr. Goh Chee Kiong; Executive Vice President of S P Setia Mr. Woo Wai Mun; Country Manager of XPENG. Charge+, described as one of Southeast Asia's largest EV charging firms, has launched 'Kuala Lumpur's fastest charging station' at KL Eco City together with the joint management body (JMB) of KL Eco City, SP Setia (master developer of KL Eco City) and EV maker Xpeng. The station uses solar power stored in batteries to deliver stable EV charging, reducing reliance on the grid during peak times. Smart Energy Management - AI-powered control optimizes energy usage and balances. As Malaysia accelerates its transition to clean energy, energy storage charging stations are becoming vital infrastructure in Kuala Lumpur. Discover key projects, market.
