

Lithium-ion batteries georgia

Overview

A joint venture between the two Korean companies will result in a new lithium-ion battery plant in Georgia to supply EVs in North America. Atlanta, GA – Janu- Governor Brian P. Kemp today announced that Battery Resourcers (now known as Ascend Elements), a lithium-ion battery recycling and engineered materials startup, will invest \$43 million to open its first commercial-scale battery recycling plant in Covington. The. Amid the surge in demand for lithium-ion batteries, which power everything from smartphones to electric vehicles (EVs), there is a greater need to properly recycle them. The Georgia Tech Research Institute (GTRI) is working to optimize Georgia's EV battery supply chain by developing cost- and. COVINGTON, Ga.
