

London s new energy storage policy is released

Overview

On 10 October 2024 the UK Government gave the green light to a cap and floor scheme to help bring long duration energy storage (LDES) projects to market. This could see the first significant long duration electricity storage (LDES) facilities in nearly 4 decades, helping to create back up renewable power and bolster the. It sets out the UK government's approach to supporting investment in long-duration electricity storage through a cap and floor scheme, similar to the one used for electricity interconnectors. AG's Energy team looks at the detail.
