

# Madagascar Energy Storage Project Construction

## Overview

---

Construction has begun on a 5 MW solar plant with 3.2 MWh of battery storage off Madagascar's northwestern coast. The project aims to cut local electricity costs and support round-the-clock power supply. Image: Ministère de l'Energie et des Hydrocarbures

Construction has started on a 5 MW solar. On J, a complete residential energy storage system comprising a 30 kWh GSL energy storage battery, a 15 kW Solis inverter, and solar photovoltaic panels was successfully installed in Madagascar, enabling customers to achieve self-sufficiency in daily electricity consumption and. Global South Utilities (GSU) has secured agreements with Madagascar to develop a 50 MW solar plant and a 25 MWh battery energy storage system (BESS) in the island nation. 500 MW Solar-Plus-Sto mini-grid can provide electricity 24/7. The 120 additional villages in 17 regions were identified in. Axian and GreenYellow operate NEA Ambatolampy, a solar power plant with a 40MW capacity and a 5MWh battery-storage capacity, making it the largest solar power station in the Indian Ocean.

## Madagascar Energy Storage Project Construction
