

Malaysia Photovoltaic Folding Container Exchange

Overview

Highjoule offers a full range of products including C&I energy storage systems, residential ESS, portable power stations, PV modules, inverters, and EMS platforms. We also provide customized solutions such as mobile solar containers and hybrid systems to meet diverse needs. Over the past five to seven years, M&A activity within Malaysia's modular photovoltaic (PV) container sector has exhibited a steady upward trajectory, characterized by a cumulative deal volume estimated to have increased by approximately 150-200%. Notable inflection points align with broader. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. Set up in under 3 hours for off-grid areas, construction sites & emergency power.
