

# Nauru solar energy policy

## Overview

---

Nauru progresses steadily in its commitment to cleaner and more dependable power sources. The commissioning of a new six megawatt solar plant marks a key milestone in this effort. The solar. This article explores Nauru's transition to sustainable solar energy as a critical response to its historical dependence on fossil fuels and the environmental and economic challenges that accompany it. This article explores Nauru's renewable energy goals, the current energy landscape, key projects, socioeconomic impacts, international. Three entities have key responsibilities in the energy sector in Nauru: the Ministry of Finance and its Planning and Aid Division; the Department of Commerce, Industry and Energy; and state-owned Nauru Utilities Corporation (NUC). The Ministry of Finance provides the national budget for energy. Historically reliant on fossil fuel imports, Nauru faced significant challenges in energy supply, with electricity being available for only half of the day for most customers due to management issues and low tariffs.

## Nauru solar energy policy
