The Intech Energy Container — or ECON — is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container. Ideal for autonomous energy supply wherever grid access is unavailable or undesired. Each container is equipped with a photovoltaic array, a battery bank, and a generator — all custom-sized to meet the specific needs of the customer. Whether deployed as a standalone microgrid or part of a larger portfolio, our containerized systems ensure rapid. Off-Grid Solar Containers transforms 20-foot shipping containers into complete, turnkey electricity generators—engineered for the places where conventional infrastructure can't reach, and built for those who refuse to compromise on reliability. Access to a parts supply chain means that systems can be built quickly, efficiently and without compromise in the UK.
