

North America Wind Solar and Energy Storage Projects

Utility-Scale ESS solutions

Overview

View our projects across North America. About Us We're committed to providing future generations with the means to power their lives in the most economic, environmental and socially responsible ways possible. What We Do We are a market-leading, independent power producer and service provider, delivering: wind (onshore and offshore). Spots are limited for ACP's brand-new energy trade, tax and supply chain forum happening February 23-24, in Washington, DC. Register today for deep-dive conversations around procurement, compliance, tariffs, and more. ACP analyzed the PJM system under two scenarios—one with all resources available. Developers added 12 gigawatts (GW) of new utility-scale solar electric generating capacity in the United States during the first half of 2025, and they plan to add another 21 GW in the second half of the year, according to our latest survey of electric generating capacity changes. The Bureau of Reclamation released proposals for managing Colorado River reservoirs amid stalled negotiations among seven states over water sharing.

North America Wind Solar and Energy Storage Projects

North America , edp

EDPR NA serves communities and businesses with more than 12,100 megawatts of reliable, clean energy across the United States, Canada, and Mexico. Our wind, solar, and energy storage facilities ...

[Factor This\(TM\) Energy Understood. All Factored In.](#)

Factor This(TM) is your premier source for green energy and storage news. Learn the latest in solar, wind, bio, and geothermal energy.

[Top 5 Renewable Energy Projects in The U.S., NES Fircroft](#)

Explore the top 5 ambitious renewable energy projects in the U.S., featuring solar, offshore wind, and battery storage set to transform the energy landscape.

[The American Clean Power Association \(ACP\)](#)

The American Clean Power Association (ACP) is the leading voice of today's multi-tech clean energy industry, representing energy storage, wind, utility-scale solar, clean hydrogen, and transmission ...

[Cleanview January 2025 report](#)

All capacity data--including solar capacity--in this report is reported in MWac, not MWdc. This enables comparison across technologies (e.g. solar, wind, batteries, gas turbines, etc).

[U.S. developers report half of new electric generating capacity will](#)

Although developers have added natural gas-fired capacity each year since then, other technologies such as wind, solar, and battery storage have become more prevalent options for new ...

[Chart: The biggest clean energy projects built in the](#)

Here are the 25 biggest solar, wind, and battery-storage installations completed in the U.S. in 2024. Canary Media's chart of the week translates crucial data about the clean energy ...

[Renewable Energy Expertise and Solutions](#)

ENGIE is an innovative, customer focused provider of competitive renewable energy solutions across North America. ENGIE is a leader in grid-scale wind, solar and storage with projects spanning across ...

[Repsol Renewables North America](#)

Renewable electricity generation is one of the main pillars in Repsol's energy transition strategy and commitment to net zero emissions by 2050. In the United States, Repsol develops, operates and ...

[EDF power solutions NA Energy Projects , Solar, wind, and storage](#)

What We Do We are a market-leading, independent power producer and service provider, delivering: wind (onshore and offshore), solar photovoltaic, storage, and electrical vehicle charging. View our ...
