

# Northern Cyprus solar Panel Project

## Overview

---

Turkey plans a \$60 million, 50-megawatt solar park in the occupied areas of Cyprus to address power shortages and high energy costs. On Ap, North Cyprus Turkcell inaugurated a Solar Energy Plant on a 10-acre area in Vadili village. The installation, which is expected to be completed within two years, aims. Cyprus is experiencing unprecedented growth in utility-scale solar development, with 797 MW of installed photovoltaic capacity as of December 2024 and ambitious plans for gigawatt-scale expansion by 2030. As the Mediterranean's emerging solar powerhouse, Cyprus offers exceptional opportunities for. Basking in more than 3300 hours of sunlight per year, Cyprus has the highest solar power potential in the European Union but currently imports most of its energy. We keep you up-to-date with recent solar R&D as well as existing and forthcoming technologies. All Rights Reserved Here.
